

# LEFT COAST CELLARS

## Willamette Valley

2009  
Cali's Cuvée  
Pinot Noir

### Tasting Notes

"Medium-bodied with a fine, limpid cherry red color, the wine presents aromas of dried fruits, dried currants, and some spice. There's a hint of that lovely earthiness so desirable in Pinot Noir. On the palate, the texture is clean and lies nicely on the tongue, with soft, supple tannins and a savory approach to fruit and finish. Throughout there's a hint of vanilla." -Jane Garvey (7/12)

### Technical Notes

- Fermentation/Aging: Tank & Oak tank
- Percentage New Oak: 60%
- Time Aged: 18 months
- Vineyard Block(s): All 7
- Clonal Selection: 114, 115, 667, 777, Pommard

- Release Date: March 2012
- Production: 3348 cases
- Suggested Retail: \$24
- Barcode: 094922873545

### Awards & Scores

2008: 92 pts, TOP VALUE -Wine Spectator  
2006: 91 pts -Wine Enthusiast

Founded in 2003, Left Coast Cellars carefully crafts award-winning, estate-grown Pinot Noir, Pinot Gris, Pinot Blanc, Chardonnay and Syrah on Oregon's 45th parallel. Our estate consists of 306 acres, 104 of which are devoted to the cultivation of grapes. The remainder of the property is preserved as one of the last stands of old growth white oak trees in the area and also contains

fruit orchards and streams. The bodies of water attract migrating birds and encourage birds of prey, helping to balance animal life in the vineyards. Working to fulfill our commitments to the strengths and benefits of biodiversity, we strive to be the best possible stewards of the land.

The Vineyards

Left Coast Cellars is situated directly on the 45th parallel. Our sustainably farmed 104 acres of estate vineyards are planted on fractured stone soils with varying slopes and elevations. The union of these differing microclimates contribute to the complexities and subtleties in all of our wines. The cool Pacific Ocean breezes that are driven into the Willamette Valley through the Van Duzer Corridor, ending just west of our vineyards, moderate our sunny summer days. It is this precise combination of geography and geology that gives our wines a distinct sense of place.
